

# SMG Reporting App

## How to pair your device

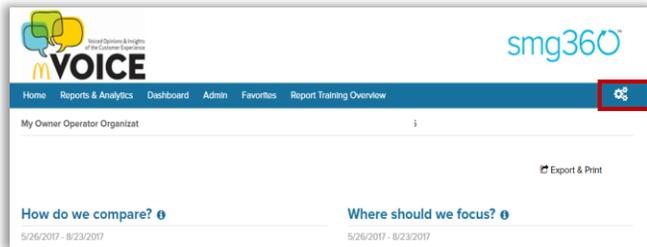

1. Ensure you have the latest version of the SMG Reporting App:

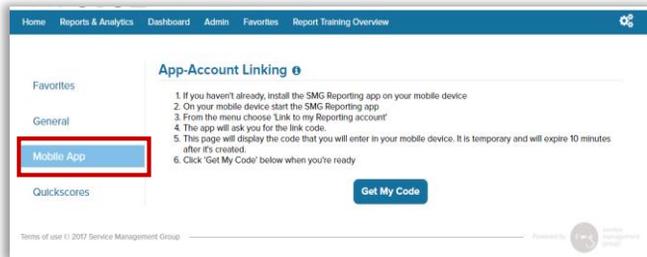

- ▶ Android Version: 3.3.0 (or newest version)
- ▶ iOS Version: 2.5.2 (or newest version)

2. Log in to the desktop version of the VOICE reporting website via normal means (company intranet or voicereporting.mcd.com)

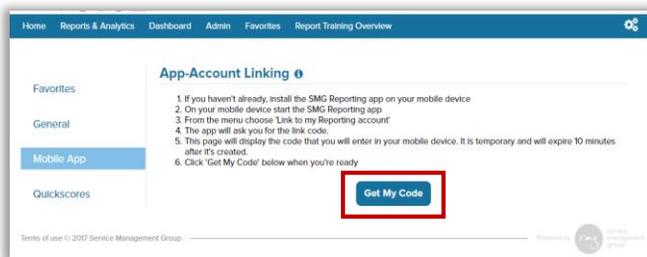

3. Click on the "Settings" icon

4. Click on "Mobile App" in the list on the left

5. Click on "Get My Code"

6. Launch the smg360 Mobile App

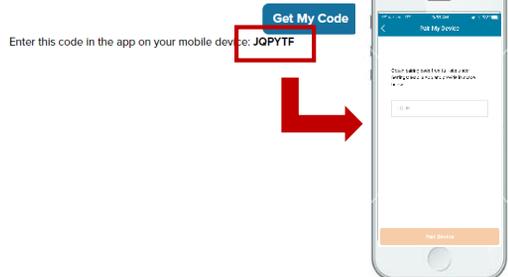

7. On the app's login screen, click on "Pair My Device"

8. Type the code obtained in step 5 in the text box and click "Pair Device"

### App-Account Linking ⓘ

1. If you haven't already, install the SMG Reporting app on your mobile device
2. On your mobile device start the SMG Reporting app
3. From the menu choose 'Link to my Reporting account'
4. The app will ask you for the link code.
5. This page will display the code that you will enter in your mobile device. It is temporary and will expire 10 minutes after it's created.
6. Click 'Get My Code' below when you're ready

You're all done! You will not be required to authenticate through this process again unless your token expires. Tokens will automatically expire when the user hasn't logged in within 90 days
